

ALEXANDER & BALDWIN FOUNDATION

1997 Review of Giving

Doing a world of good in Hawaii and beyond.

The Source of our Resources

The Alexander & Baldwin Foundation is a business-funded entity, whose charitable activities are undertaken on behalf of its funding sources: Alexander & Baldwin, Inc. and its subsidiaries.

A&B's diverse business activities involve widespread operations in a challenging global marketplace, but are based in two main areas: the Hawaiian Islands and California's Bay Area. Additional activities are focused in the Pacific Northwest, Southern California, and the Pacific Islands.

The profitable business activities of the following companies are the source of the A&B Foundation's good works:

A&B-Hawaii, Inc.

- A&B Properties, Inc.
- California and Hawaiian Sugar Company, Inc.
- East Maui Irrigation Company, Limited
- Hawaiian Commercial & Sugar Company
- Kahului Trucking & Storage, Inc.
- Kauai Coffee Company, Inc.
- Kauai Commercial Company, Inc.

Matson Navigation Company, Inc.

- Matson Terminals, Inc.
- Matson Intermodal System, Inc.
- Matson Services Company, Inc.

Doing A World of Good

From a distance, the Earth is a single entity, a green and blue globe with a frosting of clouds. Just handfuls of humans have viewed our planet from space while, below, billions make their way through daily challenges ranging from birth to death, and countless experiences in between.

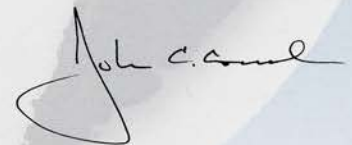

We each create a unique, personal space on this planet we all share. Yet we all have the opportunity to do good for the world, in many ways.

Doing a world of good is the continuing commitment of the Alexander & Baldwin Foundation, as it focuses its charitable resources on the needs of A&B's communities in Hawaii and beyond. Over time, the A&B Foundation has reached beyond Honolulu, beyond the Hawaiian Islands and the Pacific Region, to the U.S. Mainland, to create a better world. And, despite challenging economic conditions, the Foundation's donations remain steadfast, totaling nearly \$1.4 million in 1997, clearly demonstrating A&B's commitment to creating a better quality of life.

While A&B's leadership and employees work to create the resources, dedicated professionals and caring volunteers at hundreds of worthy organizations put A&B Foundation funds to good use to improve the daily lives of those in need.

And through the A&B Foundation's matching gifts programs, employees, retirees and directors extend not only their personal donations to charities of their choice, but trigger the Foundation's support as well. Their generosity, which has grown each year, is laudable.

On behalf of our fellow Foundation directors, officers and committee members, in Hawaii and on the Mainland, we invite you to review our 1997 year of giving, and to join with us in honoring all that is good in our world.

The Global View

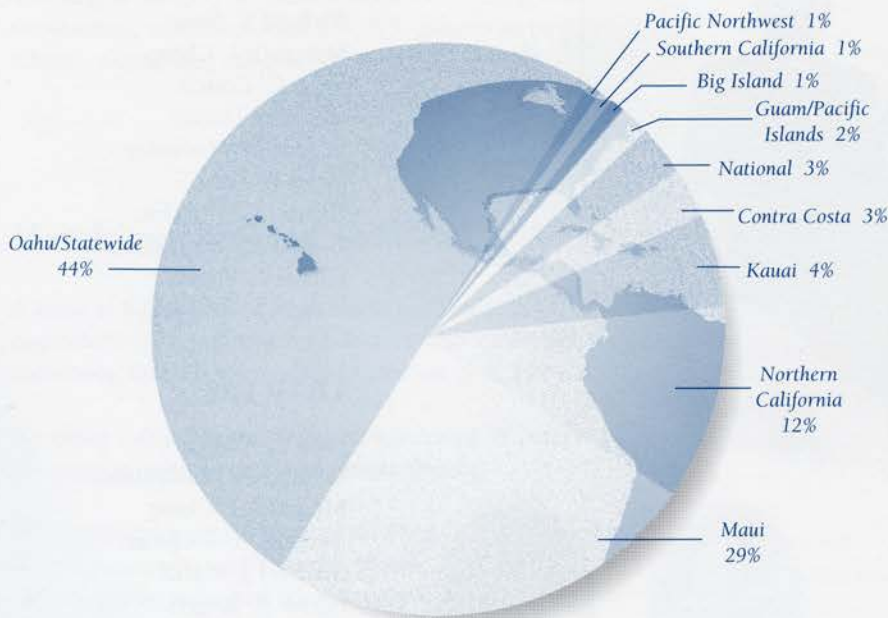

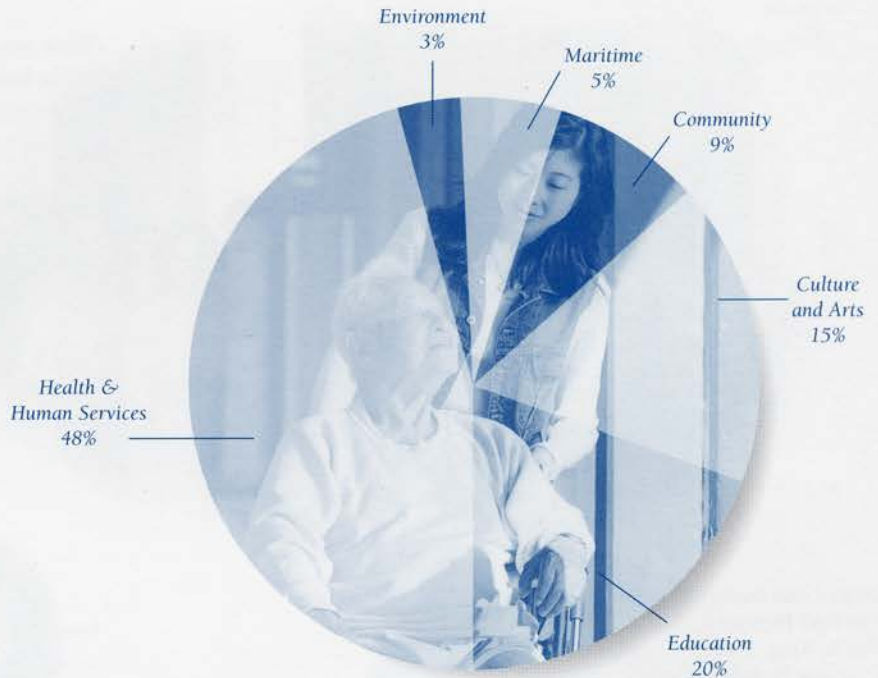

In 1997, the A&B Foundation directed nearly \$1.4 million to more than 300 charitable organizations in Hawaii and the Pacific, and on the U.S. Mainland.

BY CATEGORY

Our commitment to *Health and Human Services* is clearly demonstrated with virtually 50 cents of every Foundation dollar devoted to these basic needs. The importance of *Education* is reflected in its strong 20 percent of total funding, nearly \$250,000.

Culture and Arts — including symphonies, hula festivals and public radio and television — received a solid \$200,000.

Community causes received 9 percent of the budget while two special areas of interest — *Maritime* and *Environment* received 5 percent and 3 percent respectively.

BY LOCATION

Geographically, recipients within the state of Hawaii received 78 percent of the Foundation's funds. Of the \$1.07 million distributed in Hawaii, roughly \$600,000 went to Oahu agencies, many of which serve the entire state. The island of Maui received a strong 29 percent of the total Foundation budget. Two percent of the Foundation's funds were directed to the Pacific Islands, primarily Guam.

The remaining 20 percent of the Foundation's funds, more than a quarter of a million dollars, went to needs on the U.S. Mainland. Of that, roughly \$200,000 was directed to charities in the San Francisco Bay area, including Contra Costa County.

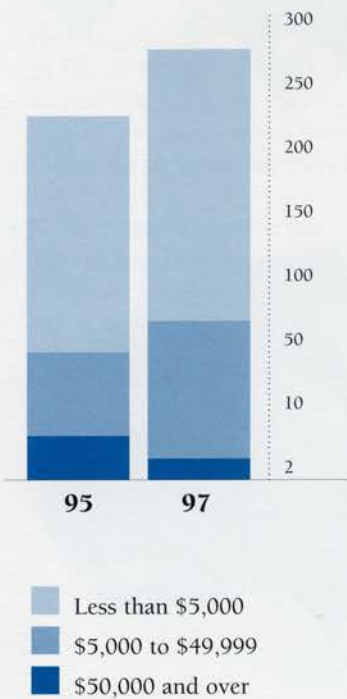

BY SIZE OF GRANT

Challenging economic conditions for our funding companies have limited the growth of our Foundation resources.

At the same time, those economic forces increase the needs within the charitable community, resulting in far more requests to the A&B Foundation.

In response, the Foundation has made more small grants — and, consequently, fewer large grants — in a conscious effort to respond to the needs of worthy organizations both in Hawaii and beyond.

NUMBER OF GRANTS

An Emergency Grant

When Typhoon Paka thrashed the tiny island of Guam in mid-December, the A&B Foundation responded to this emergency need with a significant \$25,000 contribution to the American Red Cross' program of disaster aid.

In addition to this cash support, A&B's Matson Navigation Company helped ready the damaged port for shipments of emergency supplies.

Top Photo: Evidence of Typhoon Paka's fierce, 175 mile-per-hour winds.

Bottom Photo: Red Cross volunteers assist Guamanians with applications for aid.

Major Grants

The Foundation's largest annual grants are for local health & human service agencies serving A&B's communities, distributed through the Aloha United Way (\$185,000), Maui United Way (\$123,500), Bay Area United Way (\$32,000), and Napa-Solano United Way (\$20,000). These most essential grants help improve life in A&B's parts of the world.

The Foundation made 31 major grants of \$10,000 or more including:

- \$25,000 to Maui County Council, Boy Scouts of America, for the renovation and expansion of Camp Maluhia, brings our total support for the Camp to \$50,000.
- To develop leadership skills and entrepreneurial vision for Maui residents, \$25,000 funded the Community Resource Development Center at Maui Community College.
- \$25,000 for the environmental education-oriented Interactive Science Arcade at the Hawaii Nature Center, in Iao Valley on Maui. Our 3-year support totals \$75,000.
- American Cancer Society, Hawaii Chapter received \$10,000 to purchase and renovate a historic home as ACS' new headquarters and statewide service center.

American Cancer Society board member and volunteer Indru Watumull (left) tours the ACS headquarters with A&B Foundation Hawaii Committee Chair Meredith Ching.

Maui Boy Scout Troop Leader Jeffrey Kunishige and his son, Ty, value Camp Maluhia's outdoor activities.

Doris Todd Memorial Christian School President Raymond Kokubun and Principal Carolyn Moore share architectural drawings with A&B Foundation's Robert Sasaki and HCE-S' Brian Ross. A \$10,000 grant will help improve their campus.

New Grants

Despite decades of donations, each year, worthy organizations “discover” the A&B Foundation and seek support for the first time. The needs of their worlds are often funded:

- A \$25,000 grant to Brigham Young University-Hawaii helps fund a new Hawaiian Studies program, with our donation focused on curriculum and library materials.
- The USS Missouri Memorial Association is bringing the great battleship to Hawaii’s Pearl Harbor, as a living museum and memorial, funded in part by a \$12,500 grant.
- A \$10,000 grant to Na Kai ‘Ewalu outrigger canoe paddling club enabled them to replace canoes damaged by fire. Maui’s teens and adults take part in this recreational and cultural activity.
- Ho‘omana‘olana — “*building hope*” in Hawaiian — received \$7,500 to purchase Gregory House, a transitional, independent living facility for persons with HIV/AIDS.
- A \$500 grant to the Dr. Sun Yat-Sen Hawaii Foundation to establish an electronic library, documenting the role Hawaii’s people played in the creation of modern China.

Na Kai ‘Ewalu’s Girls-13 crew works hard during practice held in Maui’s Kahului Bay.

(from right) BYU-Hawaii President Eric Shumway, A&B Foundation President John Couch, Hawaiian Studies Professor Wm. Kauaiwiulaokalani Wallace and Social Sciences Chair Jeff Burroughs gather following Wallace’s traditional Hawaiian chant accepting A&B’s gift.

Los Angeles Mission
Ronald McDonald House-Los Angeles
The Food Bank of Southern California
United Way of Greater Los Angeles
YWCA of the Harbor Area-San Pedro

National

Matson Navigation Company, Inc.
Matson Intermodal System, Inc.

GRANT RECIPIENTS

American Merchant Marine Library Association
Halau O 'Aulani
National Legal Center for the Public Interest
U.S. Merchant Marine Academy
Valley of the Sun United Way - AZ
Webb Institute

Pacific Islands

Matson Navigation Company, Inc.

GRANT RECIPIENTS

American Red Cross - Guam
Boy Scouts of America-Guam
Guam Lytico & Bodig Assoc.
The Moving Islands
Yap Community Action Program

Matching Gifts

Also doing a world of good in Hawaii and beyond are A&B's employees, retirees and directors, who made personal gifts of more than \$90,000 to their favorite charities, triggering dollar-for-dollar matching gifts from the A&B Foundation.

The Foundation is proud to recognize the generosity of these donors and is pleased to report to our communities that donors increased their support by 8 percent over the year prior. The ability to direct the Foundation's support is clearly a valuable charitable giving tool for our donors, who are thinking globally and acting locally to shape the communities in which they live and work.

Matching Gifts to Education

In 1997, \$67,491 was donated by faithful alumni, dedicated parents and concerned friends to the world of education — to 126 schools, colleges and universities in Hawaii and on the mainland.

The geographic areas primarily benefiting were Northern California and Oahu.

The largest category of beneficiaries were colleges and universities, which received \$49,073; gifts to secondary schools, elementary schools and preschools totaled \$18,418.

Matching Gifts to Culture and Arts

A total of \$22,012 was donated to cultural/artistic organizations by a devoted 63 donors who made 159 gifts, increasing their support a full 11 percent over 1996.

Northern California and Oahu each received 39 percent of the support, when considered geographically.

Within this category, our donors' priorities (ranked by dollars) include museums and libraries, theatre and dance organizations, public radio and television, symphonies and other musical groups, and zoological and botanical groups.

General Guidelines

The Alexander & Baldwin Foundation supports qualified not-for-profit organizations which benefit communities where A&B companies operate or where A&B employees reside. These organizations must have IRS Section 501(c)(3) tax-exempt status.

Areas of program interest to the Foundation include health & human services, education, community, culture & arts, maritime and the environment. The Foundation prefers to support agencies which have a preventive approach, to reduce future social problems.

The Foundation does not support travel, sporting events, scholarship programs, or make multi-year pledges.

The Foundation's Contributions Committees are geographically oriented, and each considers requests from organizations in its respective area. The Hawaii Committee meets six times a year, in the odd-numbered months. The Mainland Committee meets monthly, except for June and August. For more detailed guidelines and to request information:
