

CHALLENGE MEETS COMMITMENT

The year 2009 will be remembered for how it challenged our nation and the world, like no other time in most of our lifetimes.

Despite these unprecedented challenges, charitable giving by the Alexander & Baldwin Foundation, which is funded by the business operations of Alexander & Baldwin, Inc. and its subsidiaries, was sustained at \$1.4 million. This level of giving speaks clearly to A&B's enduring values and commitment.

In response to needs throughout Hawaii and our U.S. mainland communities, our financial commitment to them emphasized the essentials. A focus of our 2009 giving was on health & human services, targeting hospitals and shelters, care for vulnerable youth and the elderly, and food for the needy. We also sustained our annual commitments to United Way in Hawaii and their partner agencies. Much of the rest of A&B's resources supported education, through school supplies, teacher training, high school athletics, jobs re-training and computer skills, as well as general support for higher education.

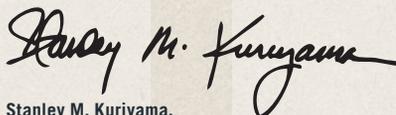

We commend all who continue to uphold their personal pledges as volunteers, individual donors, and contributing members of their communities. The dependability of your support, and ours, will be recalled when our state and nation look back on this challenging time.

As we move forward, we continue to adhere to two other core values – appreciation and optimism: appreciation for our colleagues and partners in the community, and our enduring optimism that a community that works together and supports one another can face whatever challenges the future brings.

Sincerely,

Meredith J. Ching,
A&B Foundation President and Chair, Hawaii Committee

Stanley M. Kuriyama,
A&B Foundation Director and Member, Hawaii Committee

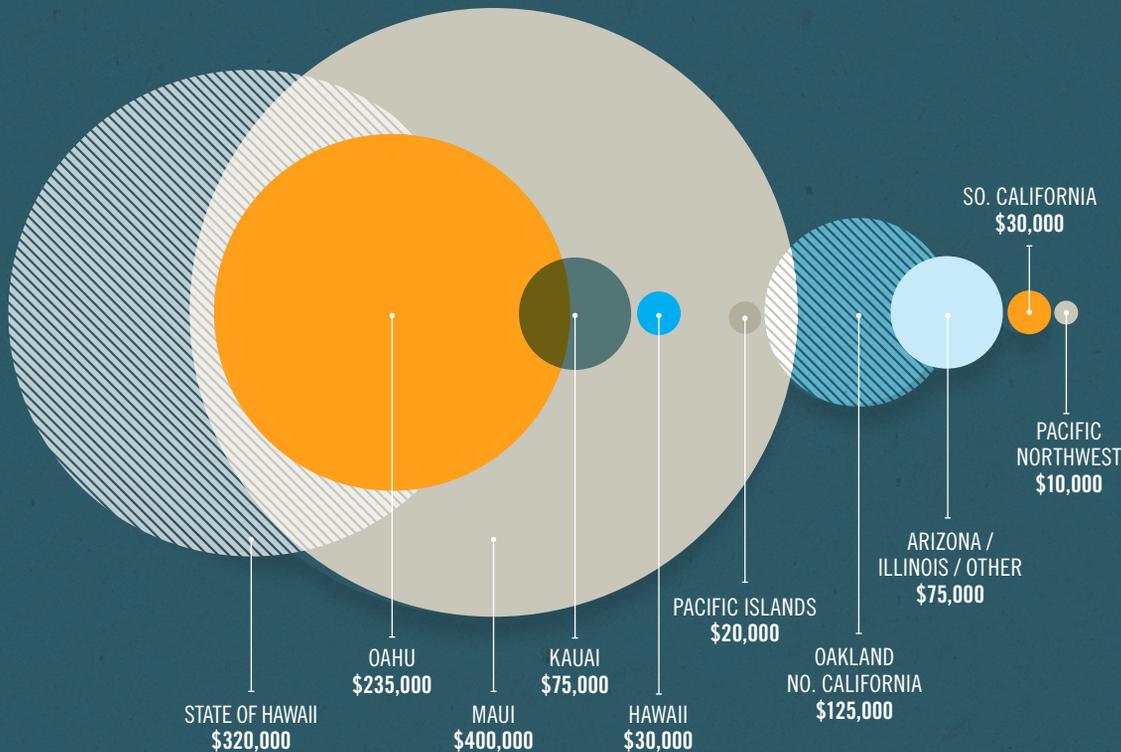

Matthew J. Cox,
A&B Foundation Director and Chair, Mainland Committee
